People spend most of their day at work, and most of the time at their desks, this is why offices and functional areas require effective lighting. Regent has combined stylish luminaire design with the latest LED technology to create light fittings for diverse office applications. The biological clock, also called the circadian rhythm (from the Latin circa dies, “about a day”) and plays an important role in regulating wakefulness and sleep. If we can help that clock, we can help people feel better. By designing great lighting systems, lighting can help increase concentration and motivation and to improve well-being.

The correct lighting can positively impact emotions and how people feel about their space that is why Regent’s office luminaires are the ideal lighting solution for any office. A lighting solution must cater for the people and their needs, this means you need to strike a balance between the individuals freedom to make adjustments and the automated intervention. By focusing on lighting requirements with a large number of fittings and using technology we are able to ensure that the appropriate lighting is achieved throughout the office.

Lighting control is an efficient way to save energy and provide light at the right place and at the right time, examples of this would be daylight harvesting which is self managing according to the incident of daylight or motion control.

Our range of office lighting offers a positive experience to the user, however ensuring that the correct fitting is specified for the appropriate application is of the utmost importance as with the advent of LED technology glare control has become an event more important factor.

Our office range of luminaires cater for various environments from our Luxon range with <19 UGR to our Signa range for more glare sensitive office environment where UGR range of <16 - <18 is required.

We develop LED solutions based on the latest research that are tested thoroughly in our in-house lighting laboratory, where we make use of the latest expertise and equipment. This allows us to ensure that all standards are achieved and exceeded.

Our range of office lighting has been developed taking into account the following criteria

- Reliable lighting control.
- Efficient optical systems.
- Ease of installation.
- Colour stability of LED.
- Flicker free power supplies with certified performance guarantees.
- Lighting comfort.

T-LINE Lighting System is a high performance LED linear lighting system.

The T-Line range is the ideal LED lighting systems to compliment the ceiling tile grid system.
MODEL NUMBER
I318 - T-LINE 600mm
I322 - T-LINE 1200mm
I323 - T-LINE 1800mm

SPECIFICATIONS

HOUSING: Extruded aluminium.
LIGHT SOURCE: The fitting is designed to operate a range of LED’s up to 63W.
DIFFUSER: PMMA Matt Opal Profile - LT76.
MOUNTING: Fitted to a standard ceiling T profile.
SYSTEM EFFICIENCY: 127.5 lm / W.
OPERATIONAL TEMPERATURE RANGE: -10°C ~ +40°C.
CCT: 4000K.

DIMENSIONS:
574mm x 27.5mm x 12mm
1175mm x 27.5mm x 12mm or
1819mm x 27.5mm x 12mm.

APPLICATION: Suitable for indoor use only.

FEATURES: Slender LED lines of light set in an architectural environment are the essence of the T-Line, with its simple elegance and adaptability it accommodates most design applications, with the electronic control gear remotely mounted. The fitting offers a precise in-line appearance that complements open space design plans. Fittings are mounted in a standard ceiling grid in 600mm, 1200mm or 1800mm lengths.

Installation instructions available on request or on the website.

NOTE: Ceiling details need to be supplied to design for the layout.

APPLICATION AREAS
Indoor application.
Office lighting
Reception areas
Retail lighting.
Educational lighting.

MODEL NUMBER
I299 - LUXON 600x600

SPECIFICATIONS

HOUSING: Seamless aluminium extruded frame.
DIFFUSER: Translucent diffuser. 2.3mm PMMA for better light transmission.
LIGHT SOURCE: The fitting is designed to operate a 39.7W LED.
FINISH: Powder coated.
MOUNTING: Recessed, surface mounted or suspended.
ACCESSORIES: Surface mounted frame and recessed mounted frame for plaster board ceiling, available on request.
2 x Aluminium ceiling tray which allows the luminaire to fit into a standard ceiling tile of 600mm x 1200mm.
UGR: <19.
POWER SUPPLY: 5 Year Warranty. Flicker free.
LUMEN MAINTENANCE: 55000h (L70).
SYSTEM EFFICIENCY: 100.76 lm/W.
CCT: 4000K.
CRI: >80.
DIMENSIONS: 595mm x 595mm x 13mm.
APPLICATION: Suitable for indoor use only.
Operating Temperature ($T_a$) - 20°C to +30°C.
Weight: 4 Kg.
INPUT VOLTAGE: 100 ~ 240V AC
INPUT FREQUENCY: 50/60 Hertz
FEATURES: Flicker Free.
Low cost energy saving alternative to CFL.
4 side edge lit allows for optical uniformity.
Low profile ideal for installation with limited recess space and shallow ceiling voids.
Plug and play remote driver for easy installation (40mm space required).
1.5kV surge protected.
Supplied with 5 amp plug set.
Dali dimmable option available on request.
Emergency 1 hour 20% available on request.

MODEL NUMBER
Y606 - ANDO

SPECIFICATIONS
HOUSING: Aluminium.
LIGHT SOURCE: The fitting is designed to operate a 50W LED.
REFLECTOR: 98% efficiency.
DIFFUSER: PMMA.
MOUNTING: Suspended. Suggested 500mm off the ceiling.
Suspension fixing: soffit or ceiling “T”.
Hanging detail: stainless steel wire and cabtyre.
COLOUR CONSISTENCY: Mac Adams 3 SDCM.
UGR: <17.
LM80 8000 hours: 97.9 (55°C).
SYSTEM EFFICIENCY: 98 lm/W.
CCT: 4000K
CRI: >80.
DIMENSIONS: 1220mm x 168mm x 40mm.
APPLICATION: Suitable for indoor use only.
Ambient temperature - 25°C
Weight: 4.2 Kg.
FEATURES: Dimmable option available.

I287 - LINEAR ALDO UP & DOWN LIGHT CONTINUOUS

SPECIFICATIONS

HOUSING: Extruded aluminium.
LIGHT SOURCE: The fitting is designed to operate a LED up to 24W/m.
DIFFUSER: PMMA Matt Opal Profile + Hi Mt. LT67 transmission diffuser.
FINISH: Powder coated.
MOUNTING: Suspended. Downlight only light element or up and downlight element.
Suspension fixing: soffit or ceiling “T”. Hanging detail: stainless steel wire and cabtyre.
Adjustable wire suspension which allows for horizontal and vertical adjustment.
ACCESSORIES: Decorative ceiling cup to accommodate ceiling adaptor and connector block.
CONTROL GEAR: The electronic power supply is suitable for operation with a 220 - 240 volts, 50 hertz single phase.
APPLICATION: Suitable for indoor use only.
Operating Temperature (Ta): -20°C to +25°C.
FEATURES: Slender LED lines of light set in an architectural environment are the essence of the Linear Aldo, with its simple elegance and adaptability it accommodates most design applications. The extruded aluminium housing offers a precise in-line appearance that complements open space design plans. Fittings can be mounted in a continuous line, with an up and down light element. Integrated control gear. Dimmable options available.
Continuous fittings are designed according to site application.
Installation instructions available on request or on the website.
NOTE: Ceiling details need to be supplied to design for the layout.
